SOME BEHAVIORAL INDICATORS

- Enthusiastic team player

PERSONAL SUMMARY

As a young and ambitious applied psychologist, with three years of hands-on experience in psychiatric healthcare, I developed besides a big heart for patients, excellent communication and team player skills.

With my huge motivation, enthusiasm, eagerness to learn and ambitions I like to be challenged by people with the same drive as me. The domain of mental heathcare pulled my attention because besides the continuous new development and accompanied challenges, it will also allow me to keep serving the patient!
